SITE ASSESSMENT

1 SITE ASSESSMENT

1.1 RMTC (REGIONAL MILITARY TRAINING CENTER) KANDAHAR 205TH - KANDAHAR PROVINCE

1.1.1 INTRODUCTION

The enclosed information contains details of a recent Site Assessment Survey and associated information undertaken by MACTEC, Inc. in March 2010. The purpose of the survey is to:

- Facilitate the future construction of the RMTC
- Identify land requirements and any associated issues
- Survey the designated land and verify land ownership
- Provide data and background information which will assist a contractor to implement a timely and efficient construction program
- Identify any factors which might require remediation prior to or during construction

The following survey will identify key factors such as:

- Ownership of land
- Surrounding land uses
- Impact (if any) of construction on surrounding areas
- Utility availability
- Any existing facilities & structures in the immediate vicinity or construction area
- Access roads
- Potential security issues
- Environmental Impact of any pre-existing conditions (if appropriate)
- Land Ownership Certificate
- Area resources
 - Raw materials
 - Transportation
 - Labor
 - Emergency facilities

The Site Assessment Survey for RMTC Kandahar will also include an MoD approved Facilities Master Plan which identifies required Land Area(s) and the location of required facilities within this area according to the SOR (Statement of Requirements).

This survey does not include non-scope items such as subsurface investigation and civil survey. This Site Assessment Survey was produced under the direction of the Project Manager and reviewed by the MACTEC Kabul Project Principal.

David J. Wheeler,
MACTEC Project Principal
Kabul

1.1.1.1 LIMITATION

The findings and results presented in the survey are relative to information collated within the time period identified in the survey and should not be relied upon as to represent the circumstances and conditions of the reported site at a substantially later date.

Subsequent to the survey, if additional information or a change of circumstances on the Site in question occurs and might be considered to have impact or influence on the pre-existing findings, then MACTEC will request the opportunity to review this information, assess any potential impact, and if deemed necessary, modify the survey.

SITE ASSESSMENT

1.1.2 OVERVIEW

In March 2010, the MACTEC Site Assessment Team undertook an evaluation of an area of land within near Camp Hero in Kandahar Province. The purpose of the Site Assessment was to confirm the location for a new RMTC which will house 750 personnel. This parcel of land was previously identified for the RMTC.

As MACTEC was appraised of the Scope of Requirements (SOR) for the proposed RMTC, the team was able to draft a basic conceptual Master Plan which included all the proposed facilities and their respective space and logistical requirements. As the result of this, an overall requirement for Site dimensions was generated which in turn facilitated the land and space requirement for the RMTC.

MACTEC then surveyed and assessed the proposed site and land to identify an overall suitable area for the RMTC. The Team confirmed all the given grid references and any relevant topographical features for the overall site.

Subsequent to this, the MACTEC Team undertook its formal Site Assessment Survey with an evaluation as outlined in this report.

1.1.3 SITE ASSESSMENT SUMMARY

1.1.3.1 SITE OWNERSHIP

The site lies adjacent to the existing Camp Hero and it's Range Complexes. All land for the site and all surrounding neighboring land is owned by the MoD.

1.1.3.2 SITE LOCATION AND EXISTING CONDITION

The Site lies within an area of open land and is basically a flat area of 364,795 square meters with a slight downward gradient in a northerly direction. There are no existing facilities, services, or structures on the Site. A wadi runs through the northern portion of the site from east to west and will require remediation as identified in the Storm Water Requirements of the SOR. The site is immediately due west of Kandahar city and approximately 2.5 kilometers west of Ring Road Hwy Route 4.

1.1.3.3 ACCESS

Access will be through the CSB from Camp Hero which is south of the RMTC site. From Camp Hero, access road runs in an east/west direction – easterly approximately 1.5 kilometers and intersects with Ring Road Hwy Route 4, and westerly where it runs into Camp Hero. Otherwise, there are not access routes to the Site.

1.1.3.4 FORCE PROTECTION & SECURITY

Due to the RMTC's location within the Camp Hero and MOD land, there are no security issues with regard to the site. However, the RMTC will have a secure external perimeter with all associated Force Protection measures for an ANA Camp to be supplemented by Guard Towers and ECP's. There will be 50 meter set backs on the eastern and western boundaries, and 35 meters on the northern boundary.

SITE ASSESSMENT

1.1.3.5 SURROUNDING LAND USE

The Site lies in open land north of Camp Hero and will be bordered to the south by a wadi and the CSB (Combat Support Battalion). To the southwest is a debris field, and to the west are ruins of a former village. Land to the north is allocated for RMTC Expansion. This expansion area is approximately 100 meters wide by the length of the site and bordered on its northern edge by an existing wadi. Land northward beyond the wadi is un-cleared UXO area.

1.1.3.6 UTILITIES

There is no water or sewage at the Site, however there is power at the nearby existing 205th HQ.

1.1.3.7 RESOURCES

Within a catchments area of 5-30 kilometers there is an adequate supply of raw and construction materials and equipment, a local labor force, labor transport, and a highway for delivery of materials.

FIELD REPORTS (ENGLISH AND PASHTO)**

SITE ASSESSMENT

SHEET INTENTIONALLY LEFT BLANK

SITE ASSESSMENT

SITE ASSESSMENT CHECK LIST

Completed by Site Assessment Team prior to leaving the Site

Name of Site: 205th RMTC- Camp Hero-Kandahar

Security: ✓ GOOD NORMAL
BAD

Date of Assessment: 16- March- 2010

Elevation: 1,017 meter

Names of Engineers: MACTEC Rep. Mohd Haroon, Abdul Hakim, Abdul Nasir, Seyed Aimal and Mohammad Nadir
MoD Rep: LTC Said Ashaq

Property Ownership questions:
MoD Ownership

Location: 485km to the Southwest of Kabul city and 30 Km to the Southeast of Kandahar city.

SITE GENERAL CONDITIONS

A. CURRENT LAND

The current land use is open MoD Government land. The site is flat and a wadi is situated to the southeast of the site. The site is situated to the north of Corps Hero and 1Kms from the Kandahar and SpeenBoldak highway.

Site is expandable to north and west directions,

Land uses of the surrounding area:

- North: GoA open land.
- South: Ruined governmental buildings.
- West: GoA open land.
- East: Wadi.

B. SITE CORNER LOCATIONS (GPS COORDINATES)

Corner Point 1 - Elev. 1,022m; 31° 29' 26.8" North, 065° 52' 40.1" East - See Photo A, B, C

Corner Point 2 - Elev. 1,003m; 31° 29' 46.6" North, 065° 52' 25.3" East - See Photo D, E, F

Corner Point 3 - Elev. 1,017m; 31° 29' 37.5" North, 065° 51' 58.2" East - See Photo G, H, I

SITE ASSESSMENT

LAND ACQUISITION REQUEST FORM (ANNEX A) REAL ESTATE FRAGO 09-265

Date of Request: 13 March 2010
Province Name: Kandahar

Village Name: Camp Hero
Local District Name: Dand

1. Unit Name: 205th Camp Hero

Site Name: RMTC Kandahar

2. List coordinates of proposed perimeter using a 10 digit MGRS (minimum of three coordinates needed to complete polygon, attach an extra sheet to this form, if necessary). Use the following formats to submit the data.

- MGRS Coordinates
- WGS84 ✓

(The above data needs to be in one of the following type of the file listed in order of preference: 1) Excel spread sheet, 2) TXT file comma separated) attach to email.

3. Date land required: N/A Duration: N/A

4. Land type is: Agricultural Industrial Unused Desert ✓ Other Irrigate Grazing
(Check all that apply)

Located on: Camp Hero

5. What will land be used for? Construction of new RMTC

List any individuals, with their contact information, claiming ownership of the land.
(Attach an extra sheet to this form if necessary)

6. Has the Governor or a local district government official agreed to use of this locations? Yes No ✓ *(Circle one) If yes, provide name of official below*

Official's name: _____
Title: _____

SITE ASSESSMENT

NOTE: The Afghanistan Minister of Defense has asked that this land request be accompanied by a note or letter, provided by a local person (Elder or District Chief) indicating the name of the surrounding area as used by the local inhabitants. The note must be clearly written either in Dari or Pashto.

7. Has there been any interaction or meetings with local community members about the site and its ownership? Yes No (Circle one) If yes, please attach a short narrative.

8. Has the local PRT Commander and/or RC been informed of and agreed to use of this location? Yes No If yes, provide name of official(s) below

Official's Name: _____
Title: _____
Phone No, Email address: _____

Official's Name: _____
Title: _____
Phone No, Email address: _____

9. Please initial next to the following statements:

____ No promises regarding compensation have been made regarding this transaction.

____ Any inquiries regarding compensation from landowners will be directed to the Ministry of Defense.

____ The polygon as listed above in item 2 includes ingress and egress to the site, and any required standoff. USCINCCENT OPOD 97-01B requires 600 feet perimeter standoff, and prefers 1,200 feet. Perimeter standoff is the distance between the outermost perimeter fence and all facilities on the site.

____ The unit will not occupy areas outside the polygon as listed in item 2.

____ The unit will not occupy the land until written approval is obtained.

10. POC for this action is: _____

Date: _____

E-mail: _____

SHEET INTENTIONALLY LEFT BLANK

SITE ASSESSMENT

ENVIRONMENTAL BASELINE SURVEY (EBS)

ANNEX B

Project Name: **RMTC – Camp Hero - Kandahar** Action:

Address/Location: **Kandahar**

VISUAL SITE INSPECTION: Yes✓ No

Mark either YES or NO for each item. Note any quantities of material that can be readily identified.

1. **Does the property lie in an area which is predominately industrial or commercial in nature (as opposed to rural)?** Yes No✓

2. **Are any of the following site facilities present on the property:**
 - a. Above Ground Storage Tanks (AGST's) (fuel, solvents, waste oil)?
Yes No✓
 - b. Known Underground Storage Tanks (UST's) (fuel, waste oil)? YES No✓
 - c. Hazardous materials storage areas? Yes No✓
 - d. Hazardous waste storage areas? Yes✓ No
 - e. Hazardous waste impoundment or lagoons? Yes NO✓
 - f. Wastewater impoundment or lagoons? Yes No✓
 - g. Chemical disposal area? Yes No✓
 - h. Landfill? Yes No✓
 - i. Underground injection wells? Yes No✓
 - j. Oil-filled electrical equipment? Yes No✓
If yes, any evidence of leakage? Yes No
 - k. Unmarked drums? Yes No✓
 - i. Electric transmission lines/transformers: pole or pad mounted? Yes✓ No
 - m. Pipelines? Yes No✓
 - n. Water wells: in-use or properly closed? Yes No✓
 - o. Machinery repair area? Yes No✓
 - p. Other debris: household, farm, industrial waste? Yes✓ No

SITE ASSESSMENT

3. Are any of the above listed facilities present on adjacent or nearby properties? (Provide details on separate sheet) Yes No
4. Does the property have any of the following features?
- a. Standpipes, vent pipes, fill pipes, other piping coming out of the ground?
Yes No✓
 - b. Soil staining? Yes No
 - c. Strong chemical, organic/solvent odors? Yes No✓
 - d. Distressed vegetation, unusual bare or dead spots? YES No✓
 - e. Dirt mounds? Yes No✓
 - f. Debris/waste/ash piles? Yes✓ No
 - g. Minor or excessive seepage/leakage? Yes No✓
 - h. Sheen on standing water or surface water bodies on or adjacent to property?
Yes No✓
5. If buildings are present, do they contain?
- a. Asbestos-containing materials? Yes No
 - b. Lead-based interior or exterior paint? Yes No
 - c. Radon gas? Yes No
6. If this is agricultural land or pasture land, is there evidence of:
- a. Wood treatment (pole or fence dipping)? Yes No
 - b. Pesticide/chemical storage and mixing/formulation areas? Yes No
7. Do historical photographs show an indication of prior uses which may have
Contributed to site contamination? Yes✓ No
8. Any other issues or observations? An old ruined foundation of a building is located here.

FILE SEARCH

1. Do any records show that there have been any hazardous substances stored at the site?
Yes No✓

SITE ASSESSMENT

If YES, what type and/or quantity of substances?

When and/or where were the substances stored?

Was the storage in compliance with regulations? Yes No

2. Were there any spills or releases of hazardous substances into the environment at the site? Yes✓ No

If YES, what type and/or quantity of substances?

To the west of the site mines were located.

When and/or where did the spill or release occur?

These mines were placed here during the Afghan Soviet war.

What was response and was it cleaned up?

Demining was not done properly yet.

3. Were any hazardous substances disposed of on the property? Yes No

If YES, on a separate sheet, list items, quantity, and location stored.

DOCUMENTATION: The following documents were reviewed and attached to determine whether any hazardous substances had ever been stored, released or disposed of at the site:

SITE ASSESSMENT

CONCLUSIONS / RECOMMENDATIONS: On the basis of the information collected as of the date of the survey, is it possible to reasonably conclude that hazardous substances have NOT been stored for one year or more, known to have been released, or disposed of on the property? Yes No✓

CONCLUSIONS: If there is reason to believe that hazardous substances have been stored on-site for one year or more, have been released to environment, or disposed of on the property, a complete explanation of the site condition shall be provided. This explanation shall include a description of the location, type, and quantity of the hazardous substance. For the purposes of complying with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), any presence of hazardous substances will be quantified as completely as possible; e.g., quantities of hazardous materials stored, released to the environment, or disposed of at the site. This information will be used for determining whether the quantities are over the CERCLA threshold limits. (Provide separate sheet.)

RECOMMENDATIONS: What are the recommendations for the mitigation of the problems identified on the property? The appropriate response action shall comply with all applicable laws, regulations, ordinances, conditions, instructions, policies, and guidance issued by the Department of Army, Environmental Protection Agency, State Agencies, or county and municipal agencies having jurisdiction to abate or prevent pollution wherein the property is located. (Provide on separate sheet.)

REMEDIAL ACTION PERFORMED ON THE PROPERTY: Note any remedial action that has been or will be taken to mitigate any problems that were noted either during the site inspection or that came to be known during the file search. Clean-up work performed on the site shall be quantified as much as possible; e.g., quantities of hazardous material removed from the site. Note the dates that any actions were performed. (Provide on separate sheet.)

Mactec Inc

To the respected Ministry of Defense 1.1.2

With all due respects:

As you know that National Military with the help of CSTC-A is developing and is in need of setting grid points and locations for the establishment and development of new facilities to be built. Mactec construction and Consultancy Company is in charge of locating, confirmation and surveying the land which are going to be established as new facilities for the national military units. Therefore CSTC-A is requesting for the support and cooperation of 8 staff from the Facility administrative and management department to assist CSTC-A for the survey of all the military units in all the corps in Afghanistan on a permanent base. The selected representatives are in charge of traveling with the Mactec personnel and will be trained on all the equipments provided from Mactec. All the 8 personnel from Ministry of Defense will be a direct representative from the Ministry of Defense and Afghan Government and will be holding a signed official document from the Ministry of Defense.

Mactec will provide all these 8 personnel per diem for each working day and there is a need of a meeting for the preparation and send off of the team with the Facility Administration and Management Department.

All the information is hereby mentioned for further process.

With regards

Lorenzo J. Valenzuela
