Debra Scribner is Afghanistan Engineer District-South's Bulldog of the Week

KANDAHAR AIRFIELD, Afghanistan — Bulldogs don't quit, no matter how tough things get. Debra Scribner, administrative support assistant, Kandahar Vicinity Area Office, demonstrated a "no-quit" attitude while working solo in her specialty.

"Debra has worked tirelessly for the past two months as the sole administrative assistant for the resident office personnel stationed at Camp Linsley," said supervisor Cesar Lopez, "She has been instrumental in coordinating communication with all the resident offices to facilitate the transition of a new Area Engineer and establishment of new operating procedures."

The Kandahar Area Office team has increased its efficiency in its contractor payments because of her efforts, he said. This has resulted in increased productivity by the contractor's in the field.

USACE's Afghanistan Engineer District-South provides design and construction services throughout southern Afghanistan to support the International Security Assistance Force and U.S. Forces-Afghanistan. The work is carried out in Regional Commands South, Southwest and West with the goal of achieving counterinsurgency effects and bolstering the Afghan Government's services to its people.
