## 6. PROPOSAL SUBMISSION REQUIREMENTS AND INSTRUCTIONS

### a. REQUIREMENT FOR SEPARATE PRICE AND TECHNICAL PROPOSALS.

(1) The Proposal shall be typed and submitted in English, and easy to read.

(2) Each Offeror must submit both a Price Proposal and a Technical Proposal. The Price Proposal and the Technical Proposal must be submitted as separate volumes. The outside of each separate volume must be clearly marked to indicate its contents; and the identity of the Offeror. Additionally, clearly identify the “original” cost/price proposal and the “original” technical proposal on the outside cover.

(3) Both the Price Proposal and the Technical Proposal must be received by the closing date and time set for receipt of proposals.

(4) No dollar amounts from the Price Proposal are to be included in the Technical Proposal.

(5) All information intended to be evaluated as part of the Technical Proposal must be submitted as part of the Technical Proposal. Do not cross-reference similar material in the Price Proposal, or vice versa. Also, do not include links to websites in lieu of incorporating information into your proposal.

(6) Do not include exceptions to the terms and conditions of the solicitation in either the technical or price proposal. Should the offer include any standard company terms and conditions that conflict with the terms and conditions of the solicitation, the offer may be determined "unacceptable" and thus ineligible for award. Should the Offeror have any questions related to specific terms and conditions, these should be resolved prior to submission of the offer. Notwithstanding the above, the Offeror must clearly describe in the Proposal Cover Sheet submitted with the Price Proposal any exceptions to the contractual and/or technical terms and conditions of the solicitation contained in the Offer.

(7) Failure to submit attachments or failing to complete them properly will result in rejection of the offer without further evaluation. Therefore, Offerors are urged to follow instructions and speak with the Contracting Officer if instructions are not understood.

b. DISCUSSIONS. The Government **does not** intend to enter into discussions with Offerors prior to determining those contractors within the competitive range, in accordance with FAR 52.215-1, Instructions to Offerors—Competitive Acquisitions, Alternate I.

c. COST OR PRICING DATA. Offerors are required to submit Cost or Pricing Data with their offers.

Do not use fold-outs (e.g., 11" x 14" or 11" x 17" sheets) unless specifically authorized in this section for a particular submission. Do not use a font size smaller than 10, an unusual font style such as script, or condensed print for any submission. All page margins must be at least 1 inch wide, but may include headers and footers.

(3) The preferred method for assembling your proposals is to use three-ring binders; however, the use of pressboard or other report covers with compression or other type fasteners is acceptable. Do not use spring clamps or exceed the recommended capacity of the fastener or

binder. Do not use plastic multi-hole/spiral binding systems, heat binding systems, or other systems which do not facilitate the ready insertion of additional pages.

(4) “Confidential” projects cannot be submitted to demonstrate capability unless all of the information required for evaluation as specified herein can be provided to the Government as part of the Offeror’s technical proposal. Offerors that include in their proposals information they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, must be clearly marked in accordance with the instructions at FAR 52.215-1, “Instructions to Offerors—Competitive Acquisition”, paragraph (e), “Restriction on disclosure and use of data”.

(5) In the case of an Offeror that is part of a large, multi-segmented business concern, provide information directly pertaining to the specific segment of the business concern (i.e., the division, group, unit, etc.) that will perform work under the prospective contract.

(6) For submissions with page limitations, the pages will be counted as follows: One side of the paper is one page; information on both the back and front of one sheet of paper will be counted as two pages. Where authorized, fold-out pages (11" x 14" or 11" x 17") will count as one page. Pages furnished for organizational purposes only, such as a “Table of Contents” or divider tabs, are not included in the page limitation.

- (7) Identification of party having overall control of the joint venture.

Other sections of the proposal shall identify, where appropriate, whether key personnel are employees of the individual joint venture parties and identify the party, or hired as employees of the joint venture.

If one of the joint venture parties possesses relevant experience and/or past performance, the experience and/or past performance of that firm will be considered as the experience and/or past performance of the joint venture.

A complete and legally binding document with all the information required under this section titled "Joint Ventures" shall be included.

## **SUBCONTRACTORS**

If an Offeror wishes to be credited with a subcontractor or supplier, i.e. a firm that is not the prime contractor or part of the joint venture, a letter of commitment signed by the subcontractor and the prime contractor must be submitted. The commitment letter must be submitted even if the firm is in some way related to a joint venture partner (for example, the subcontractor is subsidiary of a joint venture partner, or a subsidiary of a firm to which the joint venture partner is also a subsidiary). If an Offeror submits projects demonstrating experience by a subcontractor, a subsidiary, or a supplier, as opposed to the prime or one of the joint venture partners, the Offeror MUST submit a signed letter of commitment from the contractor who performed and completed the work. If a letter of commitment is not submitted, the experience will not be considered.

The Contractor's prices shall contain all Contractor’s costs inclusive of profit, all overhead (to include office and field overhead), labor burden, insurance, adjustments to listed prices, general and administrative expenses, subcontractor mark-up, mobilization and demobilization, and all other costs including, but not limited to, compliance with environmental laws, permits, preparation of reports, correspondence and documentation required by law or these specifications, tax laws, protection and/or moving of government property and engineering services. **COST/PRICE PROPOSAL EVALUATION.** An initial price analysis will be conducted on the offeror's prices using techniques pursuant to FAR 15.404-1(b) and in accordance with the solicitation. An evaluation for acceptability will be performed on each proposal in accordance with FAR 15.101-2(b). The Government will evaluate proposals as follows. First, the Government price evaluators will conduct a price analysis of overall prices and then perform a realism analysis for the purpose of measuring each offeror's understanding of the requirements and to assess the risk inherent in an offeror's proposal. Total prices submitted by the offeror that are determined to be more than 25% above or below the Independent Government Estimate and more than 25% above or below the average of all the price proposals received in response to the solicitation will be considered to be unreasonably high or unrealistically low and will not be considered for award. Second, the Government price evaluators will determine which of the proposals meeting the price reasonableness and realism analysis and rank them by total proposal price. Third, the Government price evaluators will select the ten lowest priced proposals meeting the price reasonableness and realism analysis and send those ten complete proposals without price to the Source Selection Evaluation Board. The technical (non-pricing) volume(s) of each of these ten proposals will be given to the Technical Evaluators for review, without identification of the prices or any rank order of prices. The Technical Evaluation Team will review these ten proposals for technical acceptability. If any Offerors are determined to be technically acceptable from this group, the Offeror with the lowest price technically acceptable proposal will be awarded the contract. If, on the other hand, no proposals are found to be technically acceptable within this first group of ten proposals, then the process described above will be conducted again, as many times as necessary, until such time as the Government identifies a technically acceptable proposal(s).

The proposal that provides the lowest price and is otherwise technically acceptable in all factors will be selected for award. To be considered technically acceptable, no technical factor in the proposal may be determined to be unacceptable. The failure of a proposal to meet any of the factors will result in a technically unacceptable rating and preclude award. See also Section 00120.
