Should the offeror have any questions related to specific terms and conditions, these should be resolved prior to submission of the offer. Notwithstanding the above, the Offeror must clearly describe in the Proposal Cover Sheet submitted with the Price Proposal any exceptions to the contractual and/or technical terms and conditions of the solicitation contained in the Offer.

SECTION 00120 PROPOSAL EVALUATION**SECTION 00120 PROPOSAL EVALUATION****SECTION 00120****LOW-PRICED, TECHNICALLY ACCEPTABLE (LPTA)**

1. **ELIGIBILITY FOR CONTRACT AWARD.** In accordance with the FAR, no contract shall be entered into unless the contracting officer ensures that all requirements of law, executive orders, regulations, and all other applicable procedures, including clearances and approvals, have been met. This includes the FAR requirement that no award shall be made unless the contracting officer makes an affirmative determination of responsibility. To be determined responsible, a prospective contractor must meet the general standards in FAR Part 9 and any special standards set forth in the solicitation.
2. **SOURCE SELECTION USING THE LOW-PRICED, TECHNICALLY ACCEPTABLE PROCESS.** An evaluation for acceptability will be performed on each proposal in accordance with FAR 15.101-2(b)(3). The proposal that provides the lowest price and is otherwise technically acceptable in all factors will be selected for award. To be considered technically acceptable, no technical factor in the proposal may be determined to be unacceptable. The failure of a proposal to meet any of the factors will result in a technically unacceptable rating and preclude award.
3. **BASIS OF AWARD.** Award will be made on the basis of the lowest evaluated price of proposals meeting or exceeding the acceptability standards for non-cost factors. Tradeoffs are not permitted. Proposals are evaluated for acceptability but not ranked using non-cost/price factors.
4. **EVALUATION OF THE PRICE PROPOSALS**
  - a. Price will be evaluated and considered but will not be scored or combined with other aspects of the proposal evaluation. The proposed prices will be analyzed for reasonableness. They may also be analyzed to determine whether they are realistic for the work to be performed, reflect a clear understanding of the requirements, and are consistent with the information provided by the Offeror. Additionally, all offers will be analyzed for unbalanced pricing.
  - b. The otherwise technically-acceptable, lowest-priced offeror may be required to confirm its price on a CLIN, element, or total price basis, and/or provide additional information in support of their price, prior to contract award at the Government's request and discretion.
5. **EVALUATION OF THE TECHNICAL PROPOSAL.** The Technical Proposal will be evaluated based on the following evaluation criteria:
  - a. **FACTOR 1: EXPERIENCE:** The Government will review the project experience of the offeror, including subcontractors, on projects provided in response to Section 00110, Factor 1. Offerors must meet all of the following minimum acceptability standards to receive a "GO" on this factor:
    - Offeror must have at least three (3) projects that are same/similar to that of the work found in this solicitation; AND
    - At least two (2) of the projects submitted must be valued at over \$500,000.00, and they must have been completed, or underway, within the last 5 years.

Failure to demonstrate the minimally acceptability standards under this factor will result in a "NO GO" rating and possible elimination from further consideration for contract award.

b. **FACTOR 2: PERSONNEL:** The Government will review the resumes provided in response to Section 00110, Factor 2. Offerors must demonstrate all of the following minimum acceptability standards to receive a “GO” on this factor.

The offeror must demonstrate in all resumes that the key personnel proposed have:

- a degree in the field of work governed by the position they are assigned to; AND
- a minimum of five (5) years of professional experience in their field; AND
- experience on projects same/similar to the work in this solicitation working in the position they are assigned to under this contract.

Failure to demonstrate the minimally acceptability standards under this factor will result in a “NO GO” rating and possible elimination from further consideration for contract award.

c. **FACTOR 3: PAST PERFORMANCE:** The Government will review the letters of reference submitted by the offeror in response to Section 00110, Factor 1, and may contact points of contacts listed on the “Experience Information” forms submitted under Factor 1. Offerors must demonstrate the following minimum acceptability standards to receive a “GO” on this factor:

- All past or current references must recommend either hiring or using the offeror again for future work and/or reflect positive performance of the work requirements.

Failure to demonstrate the minimally acceptable criteria under this factor will result in a “NO GO” rating and elimination from further consideration for contract award. Offerors with no past performance information will receive a “NO GO” rating for this factor.

## 6. GENERAL TECHNICAL CRITERIA

a. Material omission(s) may cause the technical proposal to be rejected as unacceptable.

b. Proposals which are generic, vague, or lacking in detail may be considered unacceptable. The offeror’s failure to include information that the Government has indicated should be included may result in the proposal being found deficient if inadequate detail is provided.

c. The Government cannot make award based on a deficient offer. Therefore, receipt of a “NO GO” determination of acceptability for any factor will make the offer ineligible for award, unless the Government elects to enter into discussions with that Offeror and all deficiencies are remedied in a revised proposal.

## 7. AGREEMENTS AND RESPONSIBILITY CONSIDERATIONS

a. Other Factors: The Contracting Officer shall consider several factors in the selection process which are important, but not quantified, such as:

(1) Agreement by the offeror to all general and special contract provisions and clauses.  
(2) Determination of responsibility of the contractor by the Contracting Officer in accordance with the provisions of the Federal Acquisition Regulation, Part 9.1. In order to be determined responsible, a prospective contractor must:

- (a) Have adequate financial resources to perform the contract or the ability to obtain them.
- (b) Be able to comply with the required or proposed delivery or performance schedule taking into consideration all existing commercial and Governmental business commitments.;
- (c) Have a satisfactory performance record.
- (d) Have a satisfactory record of integrity and business ethics.
- (e) Have the necessary organization, experience, accounting and operational controls, and technical skills, or the ability to obtain them.

- (f) Have the necessary production, construction, and technical equipment and facilities, or the ability to obtain them.
- (g) Be otherwise qualified and eligible to receive an award under applicable laws and regulations.

(End of Summary of Changes)
