Bethany Baker is Afghanistan Engineer District-South's Bulldog of the Week

KANDAHAR AIRFIELD, Afghanistan — Bulldogs are observant and steadfast. Bethany P. Baker exhibited these traits and earned recognition as Afghanistan Engineer District-South's Bulldog of the Week for Jan. 22-28.

Baker, a logistics management specialist, assumed oversight of equipping the district's MRAP team with six new MRAP All Terrain Vehicles and necessary mission equipment totaling \$4.6 million. She also worked tirelessly and meticulously to ensure 100 percent accountability of the district's weapons. Her efforts have established a solid foundation for the security, logistics and transportation needed to ensure the district's success.

“Working efficiently and using USACE core business processes are two of the commander's priorities,” said Lt. Col. Corey M. Spencer, deputy commander of the Afghanistan Engineer District-South. “Baker's dedication in ensuring our team has the equipment they need to succeed makes her a worthy Bulldog.”

Baker is deployed from the USACE Middle East District in Winchester, Va.
