Edward Scott is Afghanistan Engineer District-South's Bulldog of the Week

KANDAHAR AIRFIELD, Afghanistan — Bulldogs care about their families and Edward Scott, service desk manager, South District information management office, demonstrates that level of loyalty to teammates daily. That is why he was selected as Bulldog of the week for June 11-16.

“Edward Scott understands customer support,” said Christopher Brooks, South District chief of information (J6). “He provides phenomenal customer service to the team here at the headquarters and throughout the district.”

Brooks praised Scott’s skills as a mentor and leader of the service desk team, which responds to a myriad of computer-related issues and problems. He was instrumental in ensuring that recent major software and hardware upgrades we completed successfully.

“Ed makes himself available for support always, even after the normal duty day has ended,” said Air Force Col. Benjamin Wham, South District commander. “His tireless dedication to the mission and easygoing demeanor, make him a huge asset to the district and the J6 missions.”

Scott deployed to the South District from Fort Huachuca, Ariz.
